

EDUCATION

- IK Gujral Punjab Technical University**
B.Tech in Computer Science and Engineering; CGPA: 8.65 / 10
- Kapurthala, India
2023 – 2027

TECHNICAL SKILLS

- AI / ML:** Scikit-learn, PyTorch, TensorFlow, XGBoost, Classification, Regression, Neural Networks, Deep Learning, Transformers, Feature Engineering, Finetuning
- Generative AI & LLMs:** LangChain, LangGraph, RAG, Hybrid RAG, GraphRAG, Groq, Prompt Engineering, Embeddings, HuggingFace, Agentic Workflows, Browser Automation, MCP Servers
- MLOps & Deployment:** FastAPI, Flask, Docker, REST APIs, PostgreSQL, Git, Playwright, Data Pipelines, Model Serving, Azure, Render, Vercel
- Data & Explainability:** Pandas, NumPy, SHAP, EDA, NLP, Time Series, Matplotlib
- Languages:** Python, SQL, JavaScript, C++

EXPERIENCE

- Resolute AI Software**
Gen AI Intern
- Jun 2026 – Present
- Browser Automation:** Building AI-powered browser automation workflows using Playwright and LLM integration to automate complex multi-step web interactions end-to-end.
 - Agentic Systems:** Developing agentic systems that combine LLM reasoning with real-time browser state for autonomous task execution across web interfaces.
- EduNet Foundation (AICTE + IBM)**
AI & Machine Learning Intern
- Jun 2025 – Aug 2025
- Employee Salary Classification:** Built an end-to-end ML pipeline on structured HR data achieving **87.6% accuracy**; handled preprocessing, feature engineering, model selection, and cross-validation.
 - Model Evaluation:** Assessed performance using accuracy, F1-score, and cross-validation across supervised and unsupervised learning tasks within an IBM-structured curriculum.

PROJECTS

- PranRakshak AI: Intelligent Hospital Command Center for Early Sepsis Detection**
FastAPI, LangGraph, RAG, Groq (Llama 3.3 70B + Llama 4 Scout), SHAP, React/Vite, PostgreSQL, Render, Vercel
- Live | [GitHub](#)
- ML System:** Architected real-time sepsis early-warning on PhysioNet CinC 2019 ICU dataset (**40K+ records**) using Sepsis-3 clinical criteria; patient priority queue is the core ICU triage feature.
 - Explainability & Safety:** SHAP-based per-patient risk driver analysis framed as clinical decision support; RAG copilot with strict patient-safety boundary—OCR lab reports (Llama 4 Scout) never feed the ML model.
- Agentic Intelligence Toolkit for an AI-Focused VC Firm**
LangGraph, FastAPI, Groq (Llama 3.3 70B), Supabase pgvector, React/Vite
- Live | [GitHub](#)
- Architecture:** Built three independent LangGraph agentic modules—**Corridor Atlas** (market corridor intelligence), **AI MoatLens** (competitive moat analysis), and **SwarmSpace Navigator** (multi-agent ecosystem mapping)—using Supabase pgvector semantic retrieval and Groq Llama 3.3 70B; shipped a full-stack FastAPI + React/Vite platform for real-time VC research workflows.
- RAGify: Multi-Document AI Knowledge Assistant**
LangChain, ChromaDB, HuggingFace Embeddings, LangSmith, FastAPI, Next.js
- Live | [GitHub](#)
- Architecture:** Isolated retrieval pipelines per document to eliminate cross-domain context leakage, improving answer fidelity across concurrent multi-document sessions.
 - Retrieval:** Semantic retrieval with ChromaDB and HuggingFace embeddings; LangSmith tracing integrated; shipped end-to-end with FastAPI and Next.js.
- Quora Question Pairs: NLP Semantic Similarity Detection**
Scikit-learn, TF-IDF, Transformer Embeddings, Streamlit
- Live | [GitHub](#)
- Results:** Engineered TF-IDF and semantic features across **400K+ question pairs**; achieved **79% accuracy** and **F1 of 0.70** with classical ML. Benchmarked transformer embeddings to quantify the accuracy–latency tradeoff.

HONORS AND ACHIEVEMENTS

- Finalist, Hack On Hills – NIT Hamirpur
 - Top 5 Finalist, LPU Hackathon
- Top 10 Finalist, NIT Jalandhar Hackathon
 - 3rd Prize, University Startup Competition

LEADERSHIP

- Founder,** Upstarts – Technology and Startup Club, IKGPTU
 - Class Representative,** CS Department, IKGPTU
- 2024 – Present
2023 – Present

CERTIFICATIONS

IBM: Fundamentals of AI | Anthropic: AI Fluency | AWS: Prompt Engineering | LangChain | LangGraph
